Economic Development, Inc.

WORKFORCE READINESS PROSPER TALK

Are workforce concerns holding back your business growth? We know there are some common problems that businesses in Southern Oregon face. Perhaps the most common constraint identified in recent years is the region's workforce readiness. SOREDI is coordinating quarterly **Prosper Talks** to bring interested parties together around key topics - like workforce readiness - so that through informed dialogue solutions can be created.

Voice your concerns, provide feedback, and affect change for the betterment of our regional's economy. Gain fresh perspective, learn of opportunities and engage with special guests:

- Scott Beverage, 549c Education Service District
- John Young, Grants Pass High School Career Center Coordinator
- Mike Donnelly, Carestream Health
- Bill Jiron, Rogue Community College Customized Training

In order to facilitate dialogue that ultimately helps every business prosper through **increased understanding, active participation, and improved workforce readiness**, seating at **Prosper Talks** is limited to those that have the desire and motivation to find the resources available to affect change.

Workforce Readiness
